

# ARPCA - Passing Zones

**TRACK MAP AND PASSING PROTOCOL:** The direction of point-by will be in direction of next corner. For example: on front straight, turn 1 is a left; thereby point-by made by car being overtaken is to left (straight out driver's window). As opposed to a point-by between turns 1 and 2: turn 2 is to right so point-by is to right (over roof). IN ALL CASES, CAR BEING OVERTAKEN AND GIVING POINT-BY STAYS ONLINE ~ IT IS THE RESPONSIBILITY OF OVERTAKING CAR TO MOVE OFFLINE TO SAFELY MAKE PASS **AFTER** POINT-BY SIGNAL IS GIVEN.
